
Brunton\'s Cub Butane Stove

Posted by Hermit - 2008/04/03 16:47

I spot this Stove, wonder if anyone has experience with it's use, or what your views on it.

Webpage:

<http://www.brunton.com/product.php?id=602>

appreciate any comments

Thanks...

Sorry I don't have any first hand experience with this stover nor can I find any reviews on the net. I have however used similar stoves in the past and they worked well. They are just a bit heavier than what I like to carry now (alcohol stoves) but they do cook well and if you don't mind the weight I am sure it would be a good stove to have in your pack.
